PROJECTS

Patient Data management System

2022

- Developed a web interface for patients and hospitals to integrate patient monitoring systems and hospital information.
- Implemented PDMS (Prescription Drug Monitoring System) for efficient collection of medical records, lab diagnosis, and text extraction from prescriptions.

Quiz website

2023

- Designed and developed a sophisticated quiz website with advanced features, including the ability for users to upload CSV files containing quiz questions.
- Implemented robust anti-cheating measures to ensure fair and reliable quiz outcomes.

Mobsf

2023

- Leveraged the MobSF platform to conduct in-depth analysis of an APK, identifying vulnerabilities and areas for improvement in mobile application security. Implemented recommended changes and enhancements to the application, ensuring compliance with industry best practices and standards

SKILLS

Hard Skills:

- Web development
- App development
- Sql
- Java (intermediate)
- Version control(git & github)

Techniques:

- Object oriented programming
- Database Management
- Network Analysis

Tools:

- Vs code
- Wireshark
- Eclipse
- Colab
- Android studio

Interest:

- Web development
- Cyber Analyst
- Backend

EDUCATION

Bachelor of technology

Computer science and engineering
Kalasalingam Academy Of
Research and Education
2021-2025

Certification

- Oracle Data science Professional
- Penetration Testing and incident response(Ibm)
- Full stack web development(Devtown)
- Android app dev (Teachnook)
