- Decision making & Problem-Solving
- Communication Multi-tasking
- Time Management

Education Background

- **Kalasalingam AcademyOf Research and Education**

2021–2025

Bachelor of Technology in Computer Science Engineering

About Me

Passionate Full Stack Developer with practical MERN stack and Expo React Native experience. knowledgeable about software architecture and adept at creating cross-platform, scalable apps. devoted to using clear, maintainable code to solve practical issues and constantly willing to pick up new skills and adjust to the rapidly changing tech industry.

Professional Experience

IqtechMax

April 2025 -present

Project 1:AI-Powered Customer Support Platform (Web App)

- Developed a full-featured web application integrating chatbot assistant with video and phone call capabilities.
- Enabled real-time user-to-agent communication through chat and voice/video call features.
- Implemented RSA encryption-based authentication for secure user access.
- Added domain whitelisting to restrict unauthorized access and improve platform security.
- Ensured seamless UI/UX and responsiveness using React.js, Node.js, and WebRTC.

Project 2: Multi-Domain E-Commerce Mobile App (React Native)

- Built a cross-platform mobile application using React Native with Expo, targeting Android and iOS.
- Integrated electronics, cafe, and fashion categories in a single app with dynamic product filtering and navigation.
- Developed secure user login, cart management, and payment workflows.
- Connected frontend to backend APIs and ensured smooth user experience and performance.
- Used MongoDB, Express.js, and Node.js for backend services and Firebase for notifications.
